

Gregory O. Scott is a pen name for fan fiction writer HandofThrawn45. When Disney rebooted the Expanded Universe in 2014, it brought about the official end of the Star Wars Legends continuity. Yet while no new official Legends books have been released since the official end of the Legends line of books, not everyone has been willing to accept that it would seem. Since 2018, HandofThrawn45 has written a number of fan novels which are intended to close off the loose ends created in the wake of Disney's end of the Legends Continuity.

GREGORY O. SCOTT

The Star Wars saga moves into uncharted territory with a new tale of political intrigue where nothing is as it seems...

It has been four years since the treaty was signed between the Empire and the New Republic. The galaxy is enjoying the fruits of its new peace, and Republic Chief of State Leia Organa Solo is finally leaving politics. However, trouble is brewing in the fragile Republic. On the world of Bavinyar, conflict between human settlers and repopulated aliens is being exacerbated by a mysterious firebrand. As the election to replace Leia draws near, her political opponents see the Bavinyar situation as the perfect opportunity to cripple her allies and advance their own agenda. This time, the Republic's greatest enemy is not the Evil Empire, but the divisions within itself, and those divisions threaten to split everything and everyone apart.
